Impairment of Fixed Assets:

The Company assessed at the Balance Sheet date, the value of the Fixed Assets in order to comply with the provisions of A.S-28. The Company was of the opinion that the assets of the Company will generate adequate benefits in future. The Company has arrived to this opinion considering the present condition of the assets and its withstanding capacity even for increased capacity by four times to that of present capacity. The Company has also considered net cash flow before tax and also present value of future cash flow. The future cash flows were taken into account based on the budgeted turnovers fixed for future five years in recent budget meeting. In view of continuous profits, the discounting rate is taken at 15%. In view of this position, the Company has felt that the "Value in use" of the Fixed Assets is more than carrying cost of the fixed assets, hence no provision for impairment of Loss of Fixed Assets has been made.
